What it means to be a Crusader

We believe

That each student deserves more than just an education – they deserve a safe and positive learning environment where they are welcomed and celebrated. Every day is a chance for our students to embrace their potential.

Carlton Comprehensive Public High School

What our staff learning looks like

Our staff learning embodies a culture of collaboration, joy, mutual respect, and continuous growth. Through observation and shared experiences, we learn from one another. We are committed to refining our practices, making sure that every member of our learning community is supported professionally, emotionally, and socially.

What does excellence look like

At Carlton, excellence means creating a supportive community where collaboration and growth are encouraged. We prioritize teaching that anticipates and meets diverse student needs, ensuring every learner is supported. Our educators' confidence and competence are the foundation of our commitment to excellence.

Size is our advantage! We are a big school with big hearts and a small community feel. What makes us great are the people who walk our hallways.
